COURSE DESCRIPTION
Introduction to the terminology, concepts, and practices for the provision of information services to meet effectively user needs in a variety of settings. Special emphasis on the reference process and the content, organization, use, and evaluation of resources in print and electronic formats. Covers the sources, policies, technologies, and systems that support access to and the retrieval of information central to reference services.

Instructional Methods
The course will incorporate lecture, in-person and virtual discussion, hands-on exercises, role play, homework assignments, and projects. As a blended course there will be face to face class meetings, and extensive discussion, presentations, and announcements in the class Blackboard site (http://bb8.cua.edu ) Homework assignments will include field observation, practice exercises, and analytical assignments.

Required Text

Other Required Readings

Weiler, Angela (2005) “Information-Seeking Behavior in Generation Y Students:

Optional Supplementary Texts

Required Technologies
Capabilities Required for Course Delivery and Student Participation: Blackboard; standard CUA software; CUA library and information system accounts; video recording and editing capability (for interview role playing assignment); high speed internet access.

Tools and Technologies Taught: Advanced use of information retrieval systems, including digital library resources, library catalogs, and open Web information discovery and retrieval tools.

Other materials (e.g. lab supplies, calculators) with specifics of what is needed and how to obtain
Free demonstration accounts for commercial digital information resources, which may include any or all of the following: Dialog, Grolier’s Online; Nexis; ReadersAdvisor Online (Libraries Unlimited); Gale Reference; etc.

Course Goals and Goals for Student Learning
At the conclusion of this course, students should achieve five learning objectives. These objectives, and their relationship to the Objectives of the School, are shown in the table below:

<table>
<thead>
<tr>
<th>LSC553 Course Outcomes</th>
<th>SLIS Objectives</th>
</tr>
</thead>
<tbody>
<tr>
<td>Articulate a philosophy of reference service which includes a discussion of ethical and other issues relevant to the provision of information</td>
<td>Demonstrate a commitment to the philosophy, principles and legal and ethical responsibilities of the field. Appreciate education and service as integral to the role of the information professional in society. Articulate the economic, political, cultural, and social importance of the information profession.</td>
</tr>
<tr>
<td>Apply appropriate communications skills in instructional settings and one-on-one reference interviews.</td>
<td>Are skilled in organizing, disseminating, managing, preserving information. Are skilled in the use of information technologies and articulate. Are capable of serving information seekers in a global society. Appreciate education and service as integral to the role of the information professional in society.</td>
</tr>
<tr>
<td>---</td>
<td>---</td>
</tr>
<tr>
<td>Apply standard evaluative criteria to basic reference sources in order to determine the fitness of sources to meet particular information.</td>
<td>Are capable of serving information seekers in a global society. Interpret and apply research results from library and information science and related fields.</td>
</tr>
<tr>
<td>Demonstrate proficiency in retrieving information from general reference sources (print and electronic), including designing basic search strategies</td>
<td>Are skilled in the use of information technologies and articulate the role of information technology in facilitating information management. Are capable of serving information seekers in a global society. Interpret and apply research results from library and information science and related fields. Are dedicated to professional growth, continuous learning, and applying new knowledge to improve information systems and services to meet the needs of information users in society. Are skilled in organizing, disseminating, managing, preserving information.</td>
</tr>
<tr>
<td>Discuss policies and procedures for the provision of service, and the role and evaluation of reference and information service departments.</td>
<td>Demonstrate a commitment to the philosophy, principles and legal and ethical responsibilities of the field. Are dedicated to professional growth, continuous learning, and applying new knowledge to improve information systems and services to meet the needs of information users in society.</td>
</tr>
</tbody>
</table>

**Professional Standards Addressed**

5. Reference and User Services
5A. The concepts, principles, and techniques of reference and user services that provide access to relevant and accurate recorded knowledge and information to individuals and groups.
5B. Techniques used to retrieve, evaluate and synthesize information from diverse sources for use by individuals and groups.
5C. The methods used to interact successfully with individuals and groups to provide consultation, mediation, and guidance in their use of recorded knowledge and information.
5D. Information literacy/information competence techniques and methods.
5E. The principles and methods of advocacy used to reach specific audiences to promote and explain concepts and services.
5F. The principles of assessment and response to diversity in user needs, user communities, and user preferences.
5G. The principles and methods used to assess current and emerging situations or circumstances to the design and implementation of appropriate services or resource development.

Special Libraries Association (SLA) soon to be Association of Strategic Knowledge Professionals (ASKPro) [http://www.sla.org/PDFs/Competencies2003_revised.pdf]

C. Managing Information Services
Information professionals manage the entire life cycle of information services, from the concept stage through the design, development, testing, marketing, packaging, delivery and divestment of these offerings. Information professionals may oversee this entire process or may concentrate on specific stages, but their expertise is unquestionable in providing offerings that enable clients to immediately integrate and apply information in their work or learning processes.

C.1 Develops and maintains a portfolio of cost-effective, client valued information services that are aligned with the strategic directions of the organization and client groups.
C.2 Conducts market research of the information behaviors and problems of current and potential client groups to identify concepts for new or enhanced information solutions for these groups. Transforms these concepts into customized information products and services.
C.3 Researches, analyzes and synthesizes information into accurate answers or actionable information for clients, and ensures that clients have the tools or capabilities to immediately apply these.
C.4 Develops and applies appropriate metrics to continually measure the quality and value of information offerings, and to take appropriate action to ensure each offering's relevancy within the portfolio.
C.5 Employs evidence-based management to demonstrate the
value of and continually improve information sources and services.

Medical Library Association (MLA)
http://www.mlanet.org/education/platform/skills.html#3
“Health sciences librarians require knowledge of the content of information resources and skills in using them. They must understand the principles and practices related to providing information to meet specific user needs and to ensure convenient access to information in all forms, including
- information needs of health practitioners, researchers, educators, students, and consumers;
- information-seeking and transfer characteristics of user groups and individuals;
- assessment of identified information needs;
- health sciences and other information resources and their relevance to specific information needs;
- retrieval strategies and techniques; analysis, evaluation, and synthesis of information for identified needs;
- methods of information delivery and access;
- development of services tailored to meet needs of individual and group users; and
- resource sharing.

ALA’s Reference and User Services Association (RUSA) See:
ALA | Professional Competencies for Reference and User Services Librarians

Expectations and policies
Academic honesty: Academic honesty is expected of all CUA students. Faculty are required to initiate the imposition of sanctions when they find violations of academic honesty, such as plagiarism, improper use of a student’s own work, cheating, and fabrication.
The following sanctions are presented in the University procedures related to Student Academic Dishonesty (from http://policies.cua.edu/academicundergrad/integrityprocedures.cfm): “The presumed sanction for undergraduate students for academic dishonesty will be failure for the course. There may be circumstances, however, where, perhaps because of an undergraduate student’s past record, a more serious sanction, such as suspension or expulsion, would be appropriate. In the context of graduate studies, the expectations for academic honesty are greater, and therefore the presumed sanction for dishonesty is likely to be more severe, e.g., expulsion. ...In the more unusual case, mitigating circumstances may exist that would warrant a lesser sanction than the presumed sanction.”
Please review the complete texts of the University policy and procedures regarding Student Academic Dishonesty, including requirements for appeals, at http://policies.cua.edu/academicundergrad/integrity.cfm.
Other Policies and Expectations.
Successful completion of this course entails on-time delivery of assignments, work that meets or exceeds the standard for graduate-level programs, and regular, active participation in class discussions, exercises, and activities. Class attendance and participation are important. If you must miss a class for any reason, you are expected to notify the instructor as early as possible, and to take responsibility for catching up and making up any work missed. Students must have access to word processing and presentation software, email, CUA libraries and the ALADIN system, and the internet. Assignments are due before class on the date indicated. Unless prior permission is obtained, the grade for late assignments will be reduced by 8 points (out of 100) per day; however, any work not turned in on or before the end of the term will receive a zero grade. Grades are based on work submitted; rewriting, resubmission, and extra credit are not allowed.

Important University Resources:
CUA Network:
All students should know their NT (CUA network) account information and be able to log on to the CUA network. Contact the Center for Planning and Information Technology at 202-319-4357 for assistance.
CUA Libraries:
All students should be able to use the CUA library resources, including the ALADIN online system. Visit the CUA Library homepage at http://libraries.cua.edu for assistance and directions. See also the Mullen Library welcome page at http://libraries.cua.edu/welcome.html, or phone (202) 319-5070.
CUA Center for Academic Success
See http://success.cua.edu
Pryzbyla Center
Phone: (202) 319-5655
CUA Counseling Center:
See http://counseling.cua.edu/services/
127 O'Boyle Hall
Phone: (202) 319-5765

Accommodations for students with disabilities: Any student who feels s/he may need an accommodation based on the impact of a disability should contact the instructor privately to discuss specific needs. Please contact Disability Support Services (at 202 319-5211, room 207 Pryzbyla Center) to coordinate reasonable accommodations for students with documented disabilities. To read about the services and policies, please visit the website: http://disabilitysupport.cua.edu.

Course Requirements
Assignments and their weighting in the overall course grade are:
1. Field Study (15%) Each student will explore a library information service of the student’s choosing, by interviewing a member of the Reference or Public Services staff and observing operations.
2. Reference Source Analysis (15%) Each student will evaluate a digital library
reference resource and alternatives.

3. **Role Play Analysis (20%)** Each student will play the role of a reference librarian. A video recording will be made of the role play. The student will then view the video and analyze her/his own performance.

4. **Term Project (20%)** Each student will prepare a written report or a project related to the subject matter of the course. Options will be offered for this assignment.

5. **Student Journal in the Form of Reference Questions (10%).** Weekly reference questions will be provided. You are asked to provide a an answer, include a the citation together with the how and the why a source was chosen which will be posted to Blackboard.

**Student Led Blackboard Discussions (10%):** Each set of students will work in a group and collectively lead a panel discussion.

7. **Final Quiz (10%)** There will be an in-class final quiz.
